<p>POTENTIAL RISKS</p>	<ul style="list-style-type: none"> • Partnership working could be understood differently by the partners leading to the Strategic Group being deemed untenable. • The remit of the group might not adequately take account of the role of DHSC as system steward or NHS England as having operational oversight. • Existing SPF members, not on the Strategic Group, may feel disempowered and disengage with the Wider SPF. • Duplication/cross-over - partners may wish to consider what synergies exist between the SPF Strategic Group and other strategic “system” meetings and consider if any links/networks should be exploited. • Establishing the right approach to communications and keeping wider SPF members in the loop may create additional pressures on partners.
<p>COMMUNICATION</p>	<ul style="list-style-type: none"> • Updates will be provided from Strategic Group to the Wider SPF through a standing item on the Wider meeting agenda. • Key communications from Strategic Group will not be published as discussions may be incomplete and confidential. • Attendees to communicate back to their networks, mindful of sensitivities and confidentiality issues. • For each item at Strategic Group meeting, the group will agree what communications and actions should follow – including what should be networked out and what should remain confidential. • Supporting papers will be provided where necessary to support discussions.
