

Via a survey the East of England network identified that 70% of respondents required Job Match training and 12 trusts offered to host the training.

Actions:

- *NHS Employers to contact the 12 trusts, outline the responsibilities entailed in hosting and identify who wants to be the lead employer.*
- *Fiona MacDonald, Neil Lark and Emma Morley to send the details of the companies / accredited trainers to NHS Employers.*
- *Staff side to ensure partnership working by stressing the importance of Job Match Training to their members.*

Staff side are represented at or have identified who will attend most STP's in the East of England. However, work has stalled at Mid & South East Essex where there are no partnership group meetings scheduled for 2019. Staff side have requested an opportunity to engage.

Action: *NHS Employers to alert Danny Mortimer that this has been raised as an issue.*
