

**SOCIAL PARTNERSHIP FORUM WIDER GROUP
TERMS OF REFERENCE – updated JUNE 2023**

<p>WORKING ARRANGEMENTS</p>	<p>The Wider Group meets quarterly and is chaired by a Health Minister, currently Will Quince.</p> <p>The Wider Group is the senior SPF meeting under the auspices of which the SPF Strategic Group meets. The SPF subgroups report into the Strategic Group. The Wider Group can allocate policy issues to the Strategic Group for more detailed discussion. The Strategic Group can commission existing or new subgroups to take forward agreed priority work programmes or projects.</p> <p>Under the joint agenda setting arrangements, items for discussion may be placed on the Wider Group agenda by any of the five partners (NHS Trade Unions, NHS Employers, DHSC, NHSE, and HEE) on condition that the final agenda is agreed by all partners via the SPF Co-chairs and SPF Secretariat. Additionally, all partners are encouraged to use the forum to showcase effective partnership working in line with the aims of the forum.</p> <p>Partners’ shared values and principles for effective joint working are set out in the SPF Partnership Agreement based on a mutual commitment and shared endeavour to meet the workforce challenges facing the NHS. They should also observe the behaviours and carry out their responsibilities as set out in the SPF Members’ Handbook.</p> <p>The SPF co-chairs are responsible for ensuring that individual members uphold the forum’s spirit of co-production and its partnership principles.</p>
<p>MEMBERSHIP</p>	<p>CHAIRS/LEAD PARTNERS Will Quince, Minister of State for Health and Secondary Care (Chair) Danny Mortimer, NHS Employers (Co-chair) Sara Gorton, NHS Staff Side (Co-chair) Matthew Style, DHSC Tom Simons, NHS England Giles Denham, NHS England (previously Health Education England)</p> <p>Full membership details – see Annex A.</p>
<p>DATES</p>	<p>2023 dates: 16 March, 21 June, 14 September, 6 December.</p>
<p>AIMS</p>	<ul style="list-style-type: none"> • To act as the official, senior partnership forum in the NHS, for workforce engagement in national policy based on a representative model. • To contribute to improved patient outcomes through partnership working and staff engagement on the workforce implications of policy.

	<ul style="list-style-type: none"> • To bring partners together to discuss, debate and engage in the early stages of the development and implementation of policy and strategy in the NHS, where there are workforce implications. • To support and promote good employment practices and the benefits of good people management/workforce engagement. • To promote the value of partnership working externally and within their own organisations and actively seek opportunities to promote its ethos more widely. • To enable all partners to consider, co-ordinate and provide timely input or responses to issues on which their views are sought. • To embed the ethos of the SPF Partnership Agreement, sharing best practice, ensuring structures, representation and engagement remains relevant to the health and care landscape on key workforce issues. • To receive update reports from Strategic Group and SPF subgroups on their work and to provide further direction as required.
OBJECTIVES	<ul style="list-style-type: none"> • To operate within the principles outlined in the SPF Partnership Agreement – mutual respect, co-operation, and “no surprises” culture. • To consider the development and impact of NHS policies and strategic delivery on the NHS workforce and NHS employers and other providers of NHS-funded services and their staff, where appropriate. • To engage the workforce effectively in tackling future challenges.
DELIVERABLES	<ul style="list-style-type: none"> • Focus all work on improving outcomes for patients and staff. • Develop, implement and embed NHS transformation through partnership working. • Support development and delivery of national healthcare priorities, policy and strategy by contributing key workforce perspectives. • Signpost SPF Strategic Group to focus on particular emergent policy priorities and support the Strategic Group to commission work from existing SPF subgroups or establish new issue-specific working groups. • Develop best practice on key policy areas which can be showcased and then shared more widely as exemplars of partnership working. • Provide a vehicle to showcase regional, system and organisational best practice partnership working.
BUSINESS BENEFITS	<ul style="list-style-type: none"> • Support the delivery of high-quality services to patients/users. • Improve mutual understanding and respect. • Provide an opportunity for partners to contribute their experience and ideas to the development and implementation of healthcare policy with implication for the workforce. • Enable partners to hear, first-hand, ministerial priorities and contribute to discussions on how best to support, develop and implement them. • More effective policy making.

	<ul style="list-style-type: none"> • Contribute to improved staff experience, high standards in employment practice, and higher levels of staff engagement. • Support strong and effective leadership at local level. • Anchor all activity in the underpinning academic evidence that the quality of NHS staff engagement is a compelling predictor of overall organisational performance and productivity in the NHS as well as patient experience and outcomes. • Leadership by example - an independent SPF stocktake report undertaken in 2019 reaffirms that the SPF is “a public sector exemplar model”. • Improved connectivity with Regional SPFs, and emerging ICS SPFs, who may be encouraged to attend and share their good practice.
<p>POTENTIAL RISKS</p>	<ul style="list-style-type: none"> • The remit of the group might not adequately take account of the role of changing NHS system architecture or with other ALBs whose input might be crucial, as they are not included as full partners. • Individuals who are assigned actions may not take these forward due to other pressures/priorities leading to stagnation of the forum and its work. • A lack of forward momentum at these meetings could result in key representatives withdrawing, or a retrenching of their individual positions to the detriment of the Wider Group. • Focus on key priorities could lead to a lack of focus on other areas of interest that may previously have been covered. • Failure by any of the partners to develop effective social partnership working in relation to key priorities and policies may make the implementation of changes in the NHS ineffective. • Various pressures on industrial relations could undermine partnership working in the NHS.
<p>COMMUNICATION</p>	<ul style="list-style-type: none"> • Key communications from Wider Group meetings are agreed by all partners, published on the SPF website and promoted in the SPF Bulletin. • Attendees to communicate back to their networks in an appropriate and timely manner. • Supporting papers are, wherever possible, provided in advance of meetings to aid discussions, including updates from the SPF subgroups. • Minutes, whilst concise, will provide an accurate reflection of discussion in the meeting and agreed actions and will not be tailored to any particular partner’s perspective.
<p>TIMING and LOGISTICS</p>	<ul style="list-style-type: none"> • Meetings to be held quarterly, chaired routinely by a Health Minister. • Agendas and supporting papers will be agreed with partners prior to the meeting and forwarded to all attendees and members of the group approximately a week beforehand. • Terms of Reference will be reviewed periodically.

SPF WIDER GROUP – MEMBERSHIP

Will Quince	Ministerial Chair
-------------	-------------------

Trade Unions:

Sara Gorton	Unison Head of Health (SPF staff side co-chair)
Alan Lofthouse	Unison (Staff Side Secretariat)
